HibouAir
Air Quality Monitor

CISCO SPACES

HibouAir - Air Quality Monitor For everyone

Affordable wireless device with simple setup that provides all environments data for observations and study to preserve a healthy air quality environment.

The intelligent Air quality sensor system installs in seconds and connects to your Dashboard account, providing real time Air quality Data.

Comes With **Particle Matter** sensor (Model : SSD002/1 DNA)

Light scattering measuring principle

HibouAir App is available for all devices.

* Available on iPhone, iPad and all Android devices.

The web-based application runs on every web-enabled device. Explore Your Data Visually using various maps, charts and graphs on different devices.

Product Specifications

Connectivity	Bluetooth 5.0
Roles	Bluetooth v5.0 Peripheral
Security	Connectivity sdk kontakt telemetry
Power	+5V DC input on micro USB connector
Sensors	• Temperature, range: 0...60ºC Accuracy: ± 1ºC • Humidity, range: 0...100% r.H. Accuracy: ± 3 % r.H. • VOC (Organic Compounds) CO equivalent • Pressure, range: 300...1100 hPa ± 0.6 hPa • Ambient light, resolution: 100mLux (optional) • Particulate Matter (PM1.0 , PM 2.5 & PM 10): resolution 0.3 µg/m3 Max Error ± 15%
Mechanical	73,2 mm (L) , 50 mm (W) 12,4 mm (D)
Environmental	Temperature: 0ºC to 60ºC Humidity: 100% Ingress Protection: IP22 (Indoor use and Outdoor with extra protection case)
Mounting	Wall mounted holder
Case Material	ABS
Certification	FCC & CE, RoHS compliant, halogen-free
Colors	White
Part number	SSD002/1 DNA
Accessories	- Power adapter - USB power cable (3 meter)

How It Works

Install the App

Download and install the HibouAir app from Google Play / App Store to access real time environmental data.

Enjoy the features!

The device will accurately inform you about the air quality throguh app or your cloud dashboard account.
